

해외입국자 방역관리 흐름도(공항 입국자용)

<방대본 해외출입국관리팀, '22.4.1.(금)>

◆ **Koreans and foreigners who do not hold a certificate of negative PCR test result for COVID-19 (including those who hold a non-conforming certificate) shall be restricted from getting on board the aircraft.(Regardless of vaccination status)**

* However, if the certificate of negative PCR test result for COVID-19 is found non-conforming after arrival in Korea, the Koreans shall be put to **5-day** facility quarantine (at their own expense) plus **2-day** self-quarantine, and the entry of the foreigners shall be refused.

※ As to the entrants who are exempted from submitting a certificate of negative PCR test result, refer to 'FAQ related to Submission of a Certificate of Negative PCR Test Result' in the announcement.

◆ **Instructions on how to use the pre-entry quarantine information system**

- Complete implementation for travelers arriving at International Airport, with future plans of extending to ports.

- Q-CODE system users are not required to submit a health status questionnaire or a special quarantine report (verified by the system)

※ Details, including who can use the system and how to use it, are available at <https://cov19ent.kdca.go.kr>

◆ **Conduct a Rapid Antigen Test (RAT) on the sixth or seventh day following the arrival date.**

- (RAT) By self-examination or visit medical facilities or screening clinics

* However, entrants from overseas aged 60 and over can undergo PCR testing at screening clinics of public health centers

- Maintain the current status for persons in facility quarantine (Conduct a PCR test on the sixth or seventh day)

◆ **Quarantine exemption for people who have completed vaccinations**

※ **Definition of individuals who have completed vaccination**

▶ (Those who completed vaccination in Korea) Refers to an individual who has completed the second vaccination as of the date of admission into Korea or who has completed the third (booster) vaccination following the second vaccination and can verify the immunization history

* 14 to 180 days following the second dosage of a vaccination (1st dose for Janssen) that has been approved in Korea

- (Verification) After putting information into the pre-entry system for quarantine information (Q-CODE), check vaccination history using the given QR code.

* Those who have completed vaccination in Korea are immediately enrolled in the pre-entry system (You do not have to attach a certificate)

▶ (Those who completed vaccination outside of Korea) Refers to an individual who has received the second vaccination* from outside the country as of the date of entrance or who has received the third (booster) vaccination following the second vaccination and can verify the immunization history.

* 14 to 180 days following the second dosage of a vaccine (1st dose for Janssen) that has been approved by WHO

- (Verification) After putting information into the pre-entry system for quarantine information (Q-CODE), check vaccination history using the given QR code.

* Those who have completed overseas vaccination are required to attach a certificate of immunization history to the pre-entry system
