ACI & IATA Courses

Recognized as ACI's Accredited Training Partner and IATA's RTP (Regional Training Partner), IAAA provides various aviation training programs offered by ACI and IATA to meet special training needs.

Joint Aviation Programs

In partnership with world-renowned aviation organizations and institutions, we have collaborated to create and introduce joint aviation programs, tailored for aviation professionals, combining the flagship training content of the organizations.

Global Aviation Professional Programme (<https://gapp.ac>)

GAPP is a unique global initiative designed specifically for aviation professionals and civil aviation regulators, developed in collaboration with ICAO, ERAU and KAU

ICAO

EMBRY-RIDDLE
Aeronautical University

Incheon Airport

Joint Program (to be launched in 2024)

In collaboration with global leading aviation training institutions, we are planning to launch a joint program in 2024

Incheon Airport

Other Courses

Fellowship Program

Provided to aviation professionals from developing countries in cooperation with the Korean government and KOICA.

NGAP (Next Generation of Aviation Professionals) Program

Training for aviation related university students regarding Airport Management through in-class lecture and field trips.

Customized Program

Training for organizations for more in-depth analysis of their current issues. Based on Incheon Airport's best practices, new approaches and solutions will be provided.
